How to in Details

1. How to install the script?

Answer: To install the OTP system you need to follow the below steps :

- **Active eCommerce cms** should be **pre-installed** on your server.
- **Purchase and Download the OTP System Addon file.**
- **Login** in to your admin panel of the system
- Go to **Addon Manager**
- Click on **Install New Addon**
- Choose the **downloaded zipped file** and click on **Install**.
- After Installation, you will find the **OTP System Menu in your left sidebar** of the admin panel.
- Now you need to **configure the OTP System** Addon.

2. How many features are included in the OTP System Addon?

Answer: Below features are included in the OTP System:

- OTP For mobile registration
- OTP For forgot password
- Send SMS when any new order will be placed
- Send SMS when any order's delivery status will be changed
- Send SMS when any order's paid status will be changed

3. What are the SMS gateways used in the OTP system addon?

Answer: Three SMS gateways are used in OTP system addon. They are:

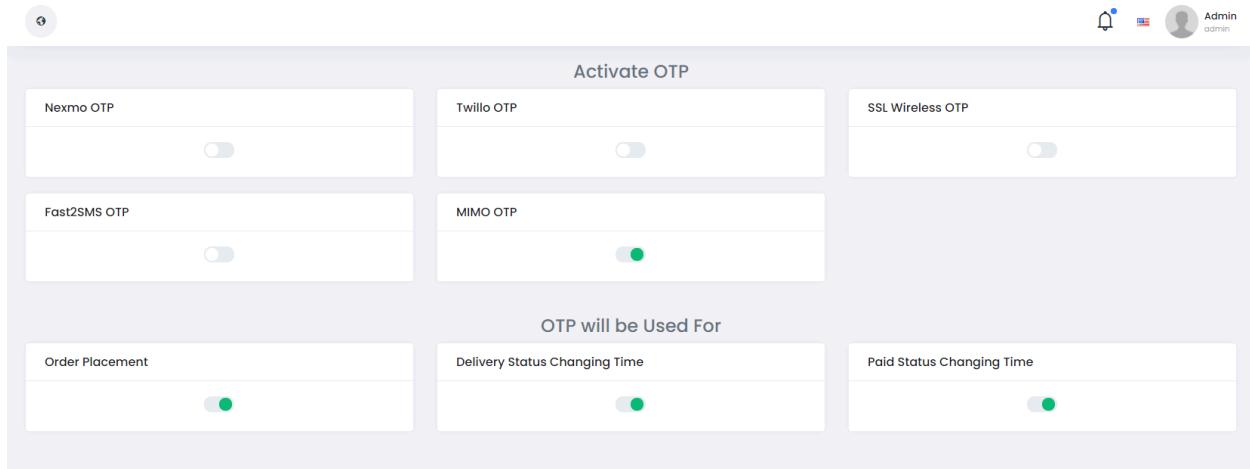

- Nexmo
- Twilio
- SSL Wireless
- Mimo
- Fast2Sms

4. How to configure the OTP System Addon?

Answer: There are two steps to configure the OTP system.

Step - 1:

- Login in to your Admin panel and Go to **OTP Configuration sub-menu** under the **OTP system menu** from the left sidebar.
- Activate that SMS gateway you want to use.
- Activate the feature when you want to use the SMS notification
- Activation will be changed on one click.

Step - 2:

- Go to **Set OTP Credentials sub-menu** under the **OTP system menu** from the left sidebar.
- Set the credentials for SMS gateways
- And click on Save.

MIMO_SENDER_ID	<input type="text" value="GrandMarche"/>

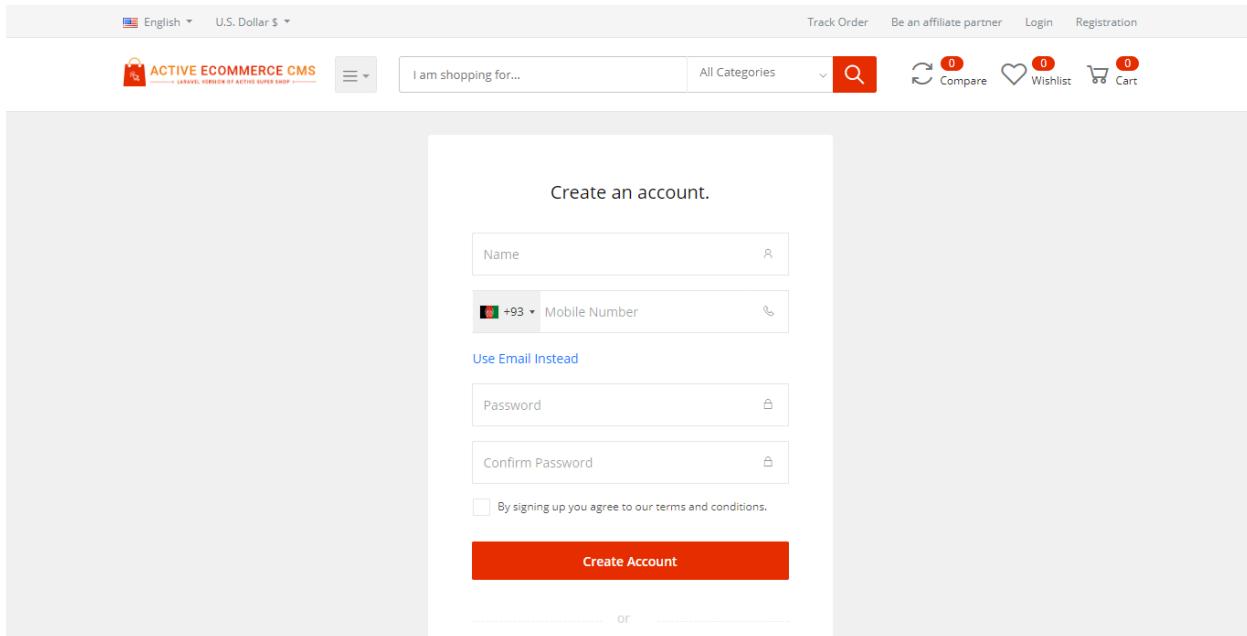

Activate Windows
Go to Settings to activate Windows.

5. What is the registration process when the OTP addon is activated?

Answer: The registration process is very easy when your OTP system addon is activated.

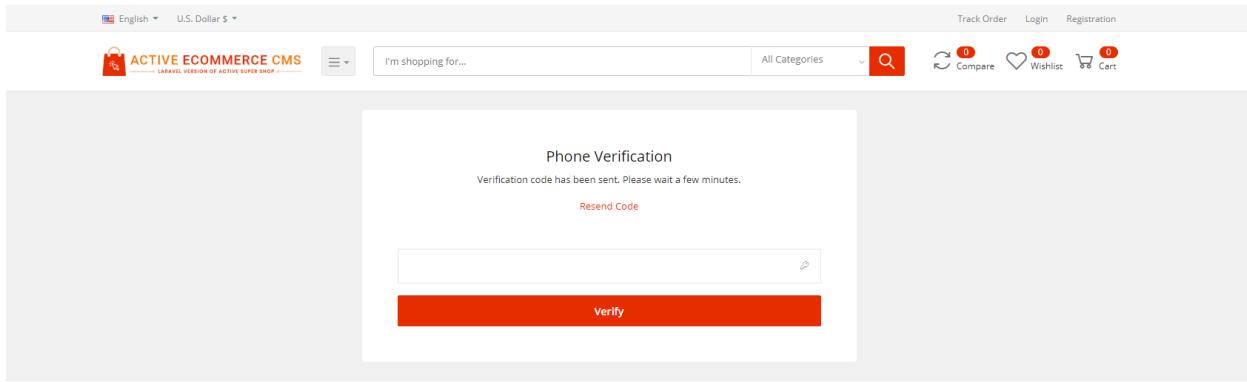

Step - 1:

- New users need to go to the Registration page.
- Users need to fill-up the form.
- They can use the phone number in lieu of email in the field named 'Email or Phone'.
- Click on Create Account.

Step - 2:

- After clicking **Create Account**, users will be redirected to the phone number verification page.
- Their users need to put the code that is sent to their phone.
- And click on **Verify**.
- Users will get registered.

6. How does forget password work?

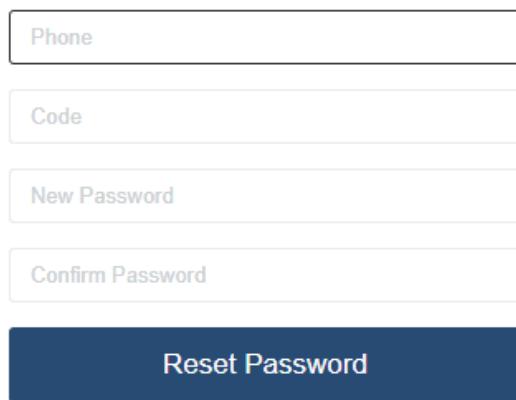

Answer: If any user forgets his/her password after registration using phone, he just needs to follow this below steps:

- Go to reset password page after clicking **Reset password using a phone** from the login page.

- Then he/she needs to put the previous OTP code that was sent to his/her mobile when he registered.
- He can set a new password.
- Finally, click on save.

Reset Password

Enter your phone, code and new password and confirm password.

The image shows a user interface for resetting a password. It consists of four input fields stacked vertically, each with a placeholder text: 'Phone' (in light blue), 'Code' (in light blue), 'New Password' (in light blue), and 'Confirm Password' (in light blue). Below these fields is a large, dark blue rectangular button with the text 'Reset Password' in white.

7. How does Login with OTP works?

Answer: Steps to Configure and Use Login with OTP:

1. Enable OTP Login:
 - Log in to your Admin panel.
 - Navigate to the OTP System menu on the left sidebar.
 - Go to the OTP Login Configuration sub-menu.
 - Enable the Login with OTP option.

The screenshot shows the Active Ecommerce CMS dashboard. On the left, there is a sidebar with a search bar at the top. Below it is a list of menu items under categories like Dashboard, Products, Notes, Sales, Customers, Sellers, Uploaded Files, Reports, Blog System, Marketing, Support, and OTP System. The 'OTP Login Configuration' item under the OTP System category is highlighted with a red box. The main content area has a header 'Login With OTP' with a toggle switch. A red arrow points to the toggle switch.

2. Using Login with OTP:

- From the login page, click on "Login With OTP."
- Enter your phone number and click the Login with OTP button.
- You will be redirected to the OTP Verification Page.
- Enter the verification code sent to your phone.

The screenshot shows the OTP Verification Page. It features a red shopping bag icon and the text 'WELCOME BACK !'. Below it says 'Login to your account.' There is a 'Phone' input field with '+1' selected and the number '201-555-0123' entered. An option 'Use Email Instead' is available. A 'Password' input field is shown with '.....' and an eye icon. A 'Remember Me' checkbox is followed by a link 'Login With OTP / Forget password?'. A red arrow points to this link. A large red 'Login' button is at the bottom. Below the button, it says 'Or Login With' and shows social media icons for Facebook, Google, Twitter, and LinkedIn. At the bottom, there are links for 'Register Now' and 'Back to Previous Page'.

WELCOME BACK !

Login to your account.
